FORGE HOLIDAY

Celebrating Easter with style

Dear Forge de Laguiole lovers,

Welcome to the first issue of FORGE in 2024! Once again this year, we will be taking you into our world of French craftsmanship and giving you exciting insights into our manufactory in the village of Laguiole.

Our first stop: colorful spring and Easter! A magical season in which we want to celebrate the joy of life together with you.

In this issue, we therefore present a very special series of our pocket knives that are ideal for this time of year. Let yourself be inspired by the variety!

And what would Easter be without an enchanting feast with the family? We would be delighted to inspire you and show you our special carving set, which is ideal for a traditional roast lamb, for example.

Have fun!

The colors of spring

Spring is bringing new life, and with it a spectacular collection from Forge de Laguiole is blooming: discover our French pocket knives in a palette of spring-fresh colors! Perfect for the joyful days ahead.

With the arrival of spring, we present a series of folding knives in vibrant, spring-like colors. This collection embodies the renewal and joie de vivre that comes with the most beautiful season of the year and invites adventurers and style enthusiasts to show their colors.

Crafted in the tradition of our renowned manufactory, these folding knives combine the highest level of craftsmanship with modern esprit. Each piece is unique, not only because of its function, but also as a colorful accessory that adds that certain something to any spring outfit.

The new collection includes a palette of colors - from green to red. It thus reflects the diversity of spring in nature and brings it into the pocket of every lover of fine knives. Whether as a faithful companion for outdoor activities or as a stylish element at a picnic - these folding knives are a must-have for the fresh season.

Holiday

Elegance at the Easter table

The Easter roast is one of the absolute highlights of any Easter celebration. With the carving set from Forge de Laguiole, carving becomes a real experience for the host and guests.

For the little ones, it's the search for Easter eggs. For the grown-ups, it's the feast. And for everyone, it's the togetherness. There are many highlights when the family gets together and celebrates Easter. But there is hardly any other moment where the togetherness is as present as at the dinner table.

When things get classic, the smell of roast lamb fills the air. In these moments of anticipation and togetherness, the carving set from Forge de Laguiole becomes the center of attention. Because it turns carving into an experience for everyone involved. For the host, because he can glide gently through the meat and for the guests, because it is so aesthetically pleasing to look at.

Our carving set represents the balance between form and function. You will find a wide selection of different models in our online store.
